Adding Fractions Bauble Challenge

Each person should:

- Roll a dice twice and add together the two numbers.
- Find the dice total on the table below.
- Answer the fraction calculation next to the dice total. Simplify your answer or change it to a mixed number if needed.
- Colour in the bauble that matches the answer.

The person with the most coloured baubles wins.

Dice Total	Calculation	Dice Total	Calculation	Dice Total	Calculation
2	$\frac{2}{8} + \frac{1}{3} =$	6	$\frac{2}{6} + \frac{5}{9} =$	10	$\frac{2}{3} + \frac{6}{9} =$
3	$\frac{1}{6} + \frac{8}{12} =$	7	$\frac{1}{2} + \frac{2}{3} =$	11	$\frac{6}{12} + \frac{6}{8} =$
4	$\frac{3}{10} + \frac{3}{5} =$	8	$\frac{4}{10} + \frac{4}{5} =$	12	Create a fraction addition calculation that matches the answer you want to colour.
5	$\frac{2}{8} + \frac{1}{2} =$	9	$\frac{1}{2} + \frac{7}{8} =$
