Heart rap

Second after second, minute after minute,
Your heart beats loud, sixty pulses per minute!

Pumping blood to your lungs,
Pumping blood to your brain,
Pumping to your cells,
Pumping through your veins.

Chorus *(To the tune of the chorus from 'Gangsta's Paradise' by Coolio)*

Been beating all my life,
It's my heart, it's my heart, it's the key to life,
Been beating all my life,
It's my heart, it's my heart, it's the key to life.

Hour after hour, day after day,
Your heart pumps hard, a hundred thousand times a day.

But it's not just a muscle,
It's not just some blood,
It's my heart
It's my soul
It's my kin
It's my hood!

Chorus

Week after week, year after year,
You've only got one heart, it's precious gear!
So put your hand on your vest,
Feel that beating in your chest,
Full of might
Full of power
Full of feeling
It's the best!

Chorus

Time after time, time after time,
Tick tock tick tock stop.
