EYFS – Wednesday 5th July 2023			
Lesson /Key Question	Link	Suggested equipment	Alternative version
To find out what lives under the sea (Literacy & Understanding the World) In this lesson, we will learn about the creatures that lurk deep beneath the sea. We will identify some of those creatures and the features that allow them to survive in an underwater habitat. Then we will capture the ocean in our very own sensory bottles.	https://classroom.thenational.academy/units/under-the-sea-3ec2?from_query=sea+reception+	Optional bottle experiment	They could make a collage or draw a picture and label their favourite sea creatures
There are 2 other activities which relate to the sea there – which involve junk modelling with material you have at home.	https://classroom.thenational.academy/units/under-the-sea-3ec2?from_query=sea+reception+
