True or False?

The approximate volume of a bath tub is 6 m^3

The approximate volume of a fish tank for a gold fish is 50,000 cm^3

The bath tub has a greater volume.

White Rose Maths

True

$6\ m^3$ is $6{,}000{,}000\ cm^3$

$50{,}000\ cm^3$ is $0.05\ m^3$

Compare the amount of water a bath tub can hold compared to a fish tank.
