Easter Project

Hello Everyone!

We really hope you and your families are keeping well. We are missing you all! We hope you are working hard as well as enjoying the sunshine and making lovely memories at home. It has been great to read the emails that you have sent in. We have seen some fabulous stories, graphs, art, singing and dancing, Rising Stars work and fun photos of your activities! Keep them coming! It would be good if you could email in at least once a week to tell us what you have been doing Please also get in contact if you are unsure of anything. We will get back to you.

For the Easter Holidays we are going to ask you to complete a project. You can present this in any way you like - written or electronic.

- Research a country of your choice. You could include some information on your chosen place to fit in with all our areas of the curriculum:

1. Literacy - A diary in the life of someone from the country
2. Maths – A graph of the population growth
3. Geography – Look at the human/physical features of the place
4. History – Research a historical event from the country
5. Science – Find out about a famous scientist from the country – what did they discover/invent? Or investigate the animals and plants that originate in the country – what are their Latin names? How are they adapted to their habitat? Draw and label diagrams of them.
6. Art – Research and recreate some art work from the country or create a 3D model of a monument from the country.
7. Music – Research and appraise some music from the country
8. Languages – Learn some basic phrases from the country
9. RE – Research a bit about the countries religion - how does it compare to your religion (if you have one)
10. ICT – Use the internet to help you research and/or to present your project

You could present this information as a poster, a fact file, an information booklet, a Power Point presentation or another way if you prefer.

We look forward to seeing these!

Please remember that you also have Mathletics, Rising Stars, TT Rockstars, 99 club and Language Nut to keep you busy as well.
https://www.bbc.co.uk/bitesize/levels/zbr9wmn is also a great learning platform for all subjects and has some fun games as well!

We hope you and your families have a fun-filled Easter!

Best wishes,

UKS2 Team
