Half Term Project

My Community

What does the word community mean to you? We would like you to explore this…

Please present your project as you wish – you could use annotated drawings, written descriptions, photographs, poems etc. about your community and why it is special to you.

Here are some ideas to get you started:

- my special place
- my house
- my pets
- my friends
- my teams and clubs
- my school
- people who are important to me
- places that make me happy
- places that I like to go
- and perhaps a self portrait…

Feel free to be as creative as you like!
