Telling the Time — 2

Digital clocks give you the time in numbers — you can have 12-hour or 24-hour digital clocks.
For 12-hour clocks, you need to remember that "am" means morning, and "pm" means afternoon and evening.

Examples

Write these times using the 12-hour clock.

- Quarter past eight in the morning **8:15 am**
- Ten to five in the afternoon **4:50 pm**

Write the time shown on the clock in words.
Is the time before or after noon?

The time is **twenty-five past four**. It is after **noon**.

Set A

Look at the clocks below.

A 

B 

C 

D 

Which clock shows:

1. quarter past ten?
2. half past six?
3. a time in the afternoon?

Look at these 24-hour clocks.

E 

F 

G 

H 

Which clock shows:

4. noon?
5. midnight?
6. ten past nine in the morning?

Write the times shown on these clocks in words.

7. 

8. 

9. 

10. 

Set B

Write the times on these clocks in words. Say if the time is before or after noon.

1. 

2. 

3. 

4. 

5. 

6. 

Write these times using the 12-hour clock:

7. half past nine in the morning
8. twenty-five past three in the afternoon
9. quarter to seven in the evening
10. five to four in the morning
11. twenty past midnight

Write these times using the 24-hour clock:

12. half past eight in the morning
13. ten minutes to noon
14. quarter past nine in the evening
15. twenty to three in the afternoon

Set C

Write the times shown below in words. Say if the time is before noon or after noon.

1. 

2. 

3. 

4. 

5. 

6. 

Write these times using both the 12-hour and 24-hour clocks:

7. half past one in the afternoon
8. twenty-five to eleven in the morning
9. five minutes to midnight
10. ten to seven in the morning
11. twelve minutes past eight in the evening

Use the 24-hour clock to write the time that is:

12. 18 minutes before 14:00
13. 37 minutes after 07:30
14. 50 minutes after 17:45
15. 21 minutes before noon
16. 4 hours 19 minutes after 23:30

I can tell and write the time from digital clocks.
