Months and Years

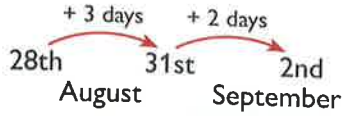

Once you know how many days are in a year, a leap year is easy — it's only one day longer with 366 days. The months are trickier — you just have to learn how many days each has.

Example

Grant's birthday is on 28th August.
Oliver's birthday is 5 days later.

When is Oliver's birthday?

Count up the days:

Oliver's birthday is on **2nd September**.

Set A

Pick the number from the box that shows the number of days in:

30	366
31	365
28	

1. October
