Easter Project

Hello Everyone,

We really hope you and your families are keeping well. We are missing you all! We hope you are working hard as well as enjoying the sunshine and making lovely memories at home. It has been great to read the emails that you have sent in. We have seen some fabulous stories, biographies, art, Classroom Secrets work, music and fun photos of your activities. Keep them coming! It would be good if you could email in at least once a week to tell us what you have been doing Please also get in contact if you are unsure of anything. We will get back to you.

For the Easter Holidays we are going to ask you to complete a project. You can present this in any way you like - written or electronic. We will provide suggestions to help you. There are two very different project options to choose from:

- To research an influential person in history who has made a difference to the medical profession today. For example, this could be a doctor, a nurse or a scientist. They may have discovered something, achieved something or radically improved something. You also may wish to research a person, or perhaps persons, of your choice. If you need some suggestions: Florence Nightingale, Mary Seacole, Edward Jenner, Alexander Fleming, Marie Curie, Louis Pasteur, Jonas Salk, Elizabeth Garrett Anderson. You could present this information as a fact file, a biography, a Power Point presentation or another way if you prefer. There is a fact file template should you wish you use it.

  OR

- To persuade people to visit a holiday destination of your choice. This could be a city break, a beach holiday or a country in which you could organise a tour around. You will need to research your chosen place thoroughly and may want to include the following information: map, climate, attractions, history, architecture, things to do, food etc. You could present this as a leaflet / brochure, a Power Point presentation or another way if you prefer. There is a leaflet template and persuasive writing map should you wish to use either.

We look forward to seeing these!

Please remember that you also have Mathletics, TT Rockstars, 99 club and Language Nut to keep you busy as well. home.oxfordowl.co.uk has a variety of free online books to read including 'free readers' – parents just need to sign up to access them. https://www.bbc.co.uk/bitesize/levels/zbr9wmn is also a great learning platform for all subjects and has some fun games as well.

In addition, we have posted a variety of Easter English, Maths and Craft fun activities for you to enjoy, should you wish to do so. Please remember that we are still issuing class dojos and have awarded some virtual Silver and Gold certificates.

We hope you and your families have a fun-filled Easter and stay safe.

Best wishes,

Mrs Madden Mrs Barnes Mr Berry Miss Horner
