ICT

When you learn to code you can make things happen on your computer.

You can make anything you want with code. It could be a game, some pictures or a film.

Computer code is a set of **rules** or **instructions.** It is made up of words and numbers and when you put them in the right order it will tell your computer what you want it to do. You can program lots of things with code.

Task – Robot sort the sequence activity.

ART and DT

Make a 3D model of a sea creature of your choice.

Draw a plan and list the materials that you are going to use.

You can use any materials that are available.

Science

How many different types of creatures can you think of that live in the sea?

What do you think is the largest creature that lives in the sea? How about the smallest?

Show Sea creature PowerPoint

Task – Choose 2 sea creatures to write a report on (see template)

- Remember to include lots of interesting facts about them
- Neat presentation and handwriting and use a ruler to underline sub-headings.
- Include drawings or photographs.

History

Ask the children to look at the photograph. What can they see? Are these children today or children in the past? Why do they think this? Explain to the children that these are real children who had their photograph taken in over 100 years ago. What are the children doing? Do children today still do the same things at the seaside? What is the same and what is different?

Show 'Seaside holidays then and now' PowerPoint.

What could you spot what was similar about beaches in the past and beaches now?

What is different?

The following Magic Grandad clip show life at the seaside over 100 years ago.
Task
Year 1 – Comparing the seaside sheet
Year 2 –Seaside past and present sheet

R.E

Ask why you think it is important to care for God's creatures as well as humans?

Our story today focuses on Buddhism, and narrates two Buddhist stories - the story of Siddhartha rescuing the hurt swan, and of the Monkey King showing the greedy human King the importance of caring for his people.
