Bishop Rock

You can see them on rocky cliffs.

You can see them on sandy shoals or dunes.

You can see them out in the sea.

You can see them at the entrances to bays and harbours.

Lighthouses warn the captain of the ship about rocky reefs under the sea.

Lighthouses warn ships about rocky coast lines.

They help ships to get in and out of harbours safely.

What could happen if the light went out in the lighthouse?
